Business Overview

Omata Shutter, a leading provider of roller shutters with history of longer than 70 years, has been providing various kinds of shutters like heavy weight roller shutter, fire shutter or smokeproof shutter, and has solid records of installing its products to many landmark buildings of governmental offices or large commercial facilities across the country.

We have recently been appointed as a sole distributor of Megadoor, a vertical lifting fabric door that is a global brand with a plenty of installation records worldwide, and we have been successfully increasing the inquiries and businesses for this product mainly from space, aviation or defense industry.

Also, uniquely positioned we are with the customized product to special needs and proud of being effectively sole manufacturer in the country of roller shutters for the shipboard helicopter of JMSDF, JCG and others.

Products · Materials · Part Sizes · Facilities & Equipment

Megadoor, a vertical lifting fabric door, has rich features as opposed to conventional roller shutters.

1. Wide opening
2. No rust or decay
3. No floor track needed which often hinders smooth operation
4. Minimum energy loss thanks to high thermal insulation performance
5. High resistance to wind/snow load
6. Efficient operation by full automatic opening and closing

Our Strength

Our long and deep experience in developing, designing, manufacturing, and supporting roller shutters across the country will certainly help to meet the needs for secure entrances of space and aviation industry.

Needs we can correspond / Business partners we want

We are seeking opportunities to get in touch with operators who are interested in secure entrance systems for their hangar for large equipment like aircraft, helicopter etc. to which our Megadoor will best fit.
