### Business Overview

- Aerospace Industry  
Manufacture and assembly of engine parts and jigs  
Manufacture of Aerospace parts  
Design and manufacture of machines for aircraft parts
- Automobile Industry  
Manufacturing Line of suspension springs (coil and leaf)  
Spark plug manufacturing machine  
Machines for tires
- Semiconductor Industry  
Design and manufacture of manufacturing machines for springs for hard disk reading

### Products • Materials • Part Sizes • Facilities & Equipment

- Products: Aircraft parts, aircraft engine MRO and precision jigs
- Materials: Inconel, aluminum, special steel, delrin
- Facility & Equipment:  
5 Axis Machining Centers:  $\phi 1250 \times 1000$   
Double Column Machining Centers (5-Axis): 5000Lx2500Wx1735H  
Horizontal NC Lathe :  $\phi 1100 \times 2000$   
3D Coordinate Measuring Machine: 850x1000x600 (Measuring range)

### Our Strength

- We manufacture custom-made machines which meets customers' every needs.
- We have know-how and achievement especially for automation, design development and parts processing.
- Our wide experience in automobile, aircraft, steel and electrical industry will support you to new process method and cost reduction method.
- We provide system integration for both single machine design and line design.
- We support you from studying stage through after-sales service.
- We have enough experience for machining and cutting hard-to-cut materials such as Inconel.

### Needs we can correspond / Business partners we want

- We offer various service such as arranging purchase parts, designing, manufacturing and inspection, which can save your labour.  
(We have achieved 40% cost reduction from target price.)
  - We offer service with low-cost, high quality and short delivery time.  
(3 days is the fastest delivery after your order)
