

## 27 COMPANY PROFILE

**J · 3D Co., Ltd.** 

|                     |  |
|---------------------|--|
| Address             | 1-30 Yuya-cho, Minato-ku, Nagoya-shi, Aichi, Japan                                     |
| Tel                 | +81-52-389-1901  |
| Email               | info@j3d.jp  |
| Website             | http://j3d.co.jp   |
| Contact Person      | Makoto Takada  |
| Capability Category | Metal 3D printer contract modeling   |
| Representative      | Fumio Takaseki   |
| Sales Amount        | 300 million  |
| Capital             | 20 million   |
| Employees           | 7 people   |
| Established         | September, 2013  |
| Group Name          | F & C Holdings Co., Ltd.<br>FUJIMAKI GROUP   |
| Major Customers     | JAXA · domestic automobile manufacturers,<br>· domestic automobile parts manufacturers |

### ■ Business Overview

We have 4 metal modeling machines and realize various material correspondence and speed correspondence.  
Reproduces shapes that cannot be manufactured by cutting, and realizes weight reduction and high functionality (integration)  
Cost reduction and shortened delivery time by making prototypes without molds

### ■ Products · Materials · Part Sizes · Facilities & Equipment

IN718 · AlSi10mg · TiCP · MS1  
250 x 250 x 280(Z) mm  
EOSINT M280(EOS)  
EOSINT M290(EOS)  
METAL X(Markforged)  
ATOS triplescan(GOM)  
Dlyte(GPAINNOVA)

### ■ Our Strength

Metal modeling / reverse engineering

### ■ Needs we can correspond / Business partners we want

Reproduces shapes that cannot be manufactured by cutting, and realizes weight reduction and high functionality (integration)  
Cost reduction and shortened delivery time by making prototypes without molds
