

# Company Profile

## Watanabe Seimitsu industries, LTD

<b>Address</b>	1-59-1 Jyuichiya, Minato-ku, Nagoya, AICHI, 455-0831 JAPAN
<b>Tel</b>	+81-52-383-8282
<b>Email</b>	info@WSL-G.co.jp
<b>Website</b>	<a href="https://www.WSL-G.co.jp/">https://www.WSL-G.co.jp/</a>
<b>Contact Person</b>	Masaaki Teranishi (President)
<b>Capability Category</b>	Measurement jigs and inspection jigs for parts inspection and measurement jigs Machine jig for parts processing Mechanical parts Design for jigs
<b>Representative</b>	Masaaki Teranishi
<b>Sales Amount</b>	500 million yen
<b>Capital</b>	24 million yen
<b>Employees</b>	40
<b>Established</b>	1947
<b>Certification</b>	MSJ4000
<b>Major Customers</b>	Mitsubishi Heavy Industries, LTD DENSO CORPORATION NGK INSULATORS, LTD.

### Business Overview

- Since our founding, we have been involved in the aerospace industry and have manufactured jigs and tools for the automobile industry, electrical industry, semiconductor industry, etc.
- We are good at manufacturing high precision jigs and tools with complicated shapes. The accuracy is in units of 0.001mm.
- We have a design department. We can provide one-stop service from design, manufacturing and quality assurance.
- In recent years, we have been focusing on building a network of cooperating factories, and it has become possible to respond to customer requests in a timely manner regardless of material, size, and accuracy.

### Products • Materials • Part Sizes • Facilities & Equipment

- Products • Materials • Part Sizes:  
Surface grinding machine, cylindrical grinding machine, internal grinding machine, profile grinding machine, jig grinding machine, jig drilling machine
- Facility&Equipment:  
electric discharge machine, wire electric discharge machine  
Machining center, vertical milling machine, lathe  
Block gauge, precision surface plate, length measuring machine, shape measuring machine, surface roughness measuring machine, Coordinate Measuring Machine

### Our Strength

- ① Precision is in units of 0.001mm
- ② Measuring jigs, inspection jigs, masters, machine jigs, Prototype
- ③ Equipment parts
- ④ Jig tool and machine jig design
- ⑤ From 1 to thousands

### Needs we can correspond / Business partners we want

- ① We can accept orders for precision jigs and tools, general jigs and tools, equipment parts.
- ② Lathe, milling, polishing
- ③ We can produce high-mix low-volume production to thousands of pieces.
- ④ Hard to cut materials

### Office & Plants

- | Headquarters factory only
